

Omar Mahmoud Sophy Rezk

Data Analyst | BI Analyst | Power BI Developer

Cairo, Egypt • (+20) 01002127404 • orezk337@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst and Power BI Developer with 2+ years of experience transforming complex data into decision-ready dashboards, KPI reports, and business insights. Proficient in Python, SQL, Power BI, DAX, Power Query, Excel, data cleaning, ETL, data modeling, exploratory data analysis, and visualization. Built end-to-end analytics projects across transportation, lending, and sales datasets totaling 190,000+ records, with experience communicating findings to technical and non-technical stakeholders.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Exploratory Data Analysis, Statistical Analysis, KPI Reporting, Business Reporting, Data Validation, Trend Analysis

BI & Visualization: Power BI, Tableau, Excel, PivotTables, Power Query, Dashboard Design, Interactive Reports

SQL & Databases: SQL Server, T-SQL, MySQL, PostgreSQL, Joins, CTEs, Aggregations, Data Extraction, Data Cleaning

Power BI Development: DAX, Data Modeling, RLS, Measures, Calculated Columns, Power BI Service, PBIP, TMDL Semantic Models

Python Analytics: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Jupyter Notebook

AI & ML: Regression, Classification, Model Evaluation, TensorFlow, NLP, Prompt Engineering, LLM Evaluation, RLHF

Tools: Git, Power Automate, Excel, Power BI Service

PROFESSIONAL EXPERIENCE

Marketing Data Analyst | Al Farouk Educational Services | Sep 2026 - Present

- Track CTR and campaign KPIs for educational course launches and evaluate marketing performance.
- Use SQL to prepare marketing data and apply statistical analysis to identify performance trends.
- Present insights and recommendations to support campaign evaluation and marketing decisions.

Data Analysis Instructor | eYouth | Cairo, Egypt | Apr 2026 - Present

- Deliver instructor-led data analysis training through practical, industry-relevant learning experiences focused on career readiness.
- Guide learners through data cleaning, exploratory analysis, SQL, Power BI, KPI reporting, and dashboard development using hands-on datasets and projects.
- Develop exercises and learning materials, assess learner work, and provide actionable feedback on analytical methods, insights, and visualizations.

Programming Instructor | Almentor | Cairo, Egypt | Oct 2023 - Aug 2025

- Delivered Python, data science, and AI fundamentals training for more than 100 learners through the DECI Initiative.
- Taught data structures, data analysis, visualization, machine learning fundamentals, and analytical problem-solving with Python.
- Developed hands-on exercises and facilitated technical workshops using Python-based datasets.

AI Model Trainer | Aligner | Remote | 2023 - 2026

- Evaluate AI model outputs using structured criteria for accuracy, reasoning quality, instruction following, and consistency.
- Analyze responses across coding, reasoning, and NLP tasks to identify errors, recurring quality issues, and improvement opportunities.
- Provide detailed written feedback and contribute to quality standards, annotation guidelines, and evaluation workflows.

AI Model Trainer | Outlier | Remote | 2023 - 2026

- Reviewed AI-generated responses for correctness, coherence, safety, and alignment with task requirements.
- Contributed to model improvement through prompt testing, response comparison, quality assurance, and structured feedback.

PROJECTS

Sales Intelligence Hub - Python, Power BI, SQL & Excel | [GitHub](#) | [Case Study](#)

Built an end-to-end sales analytics solution using Python and Excel for cleaning and validation, SQL Server for reusable KPI views, and Power BI with DAX, Power Query, data modeling, drill-through, and navigation. Analyzed \$1.12M in sales, \$392.7K net profit, and a 35.17% margin across 488 orders, identifying the West as the top region (\$341.2K) and Technology as the leading category (\$462.9K).

Tech Stack: *Python, Pandas, SQL Server, T-SQL, Power BI, DAX, Power Query, Excel*

Uber Trips Analytics - Python, Power BI & SQL Server | [GitHub](#) | [Case Study](#)

Developed an end-to-end analytics solution for 103,728 trips. Used Python for data profiling and validation, SQL Server and T-SQL for transformation and analytical queries, and Power BI, Power Query, and DAX to deliver five interactive report pages covering demand, revenue, vehicle performance, time patterns, locations, and data quality.

Tech Stack: *Python, Power BI, DAX, Power Query, SQL Server, T-SQL, PBIP, TMDL*

Bank Loan Portfolio Analysis - Python, Power BI & SQL | [GitHub](#) | [Case Study](#)

Analyzed 38,576 loan applications using Python and SQL Server for data cleaning, validation, and portfolio analysis. Built a three-page Power BI report with DAX and T-SQL calculations for funding, repayments, MTD and MoM performance, loan-quality segmentation, borrower risk, and portfolio KPIs.

Tech Stack: *Python, Power BI, DAX, Power Query, SQL Server, T-SQL, Excel*

FinSight Finance Analysis - Power BI, Python & SQL | [GitHub](#) | [Case Study](#)

Built a three-page Power BI report exploring financial transactions by customer segment, location, and payment status. Used Python and SQLite to clean and validate 50,000 unique transactions and create reusable KPI views. Documented differences between notebook and dashboard cleaning policies to support accurate interpretation.

Tech Stack: *Power BI, DAX, Power Query, Python, Pandas, SQL, SQLite, Jupyter Notebook*

Cardiovascular Disease Data Analysis - Python | [Kaggle](#)

Cleaned and validated patient health indicators, performed exploratory data analysis, analyzed disease patterns, and visualized relationships across clinical and lifestyle risk factors.

Tech Stack: *Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook*

Tesla Stock EDA & Prediction - Python | [Kaggle](#)

Cleaned and prepared historical stock data, analyzed price, volume, trends, volatility, and feature correlations, and compared Linear Regression, KNN, Ridge, and Lasso models.

Tech Stack: *Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Jupyter Notebook*

COURSES & CERTIFICATIONS

Professional Data Analyst Track | Digital Egypt Pioneers Initiative (DEPI) - Ministry of Communications and Information Technology (MCIT) | 2026 - Present (In Progress)

- Completing a 214-hour program comprising 160 hours of technical training, 36 hours of soft skills and freelancing, and 18 hours of English-language training.
- Complete hands-on projects in data analysis, data cleaning, exploratory analysis, visualization, dashboard development, and data storytelling using Python, SQL, Excel, and Power BI.

Data Science & Artificial Intelligence Training | Samsung Innovation Campus | Jul 2023 - Oct 2023

- Completed hands-on data science and artificial intelligence training using Python, including data preprocessing, exploratory data analysis, visualization, and machine learning fundamentals.

SQL Masterclass Certification for Advanced Level | Almentor | Apr 2025

Huawei HCIA-AI Learning Course | Huawei ICT Talent Bank & Ministry of Youth and Sports

Data Analysis Track | IEEE Egypt - Volunteers Empowerment Program (VEP) | 2023

EDUCATION

B.Sc. in Computers and Artificial Intelligence | Benha University | 2019 - 2023

- Graduation Project Grade: A+

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
